

# Cat<sup>®</sup> Ball Bearing Grease

For Use in High Speed Ball & Roller Bearing Applications

NLGI 2

## Discover the Difference

Formulated with polyurea thickener and corrosion inhibitors, Cat<sup>®</sup> Ball Bearing Grease provides excellent lubrication in ball and roller bearings operating over a broad temperature range.

**High-Stress Performance**—Provides outstanding protection at high speeds (10,000 rpm and greater) and the high temperatures (160°C/320°F) associated with high-speeds.

**Increased Component Life**—Heat resistance provides improved protection, reducing component wear rates.
